This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE.

The formality of a preface may seem scarcely necessary for the supplementing of a system as simple and comprehensible as the one herewith presented.

We have but to divide any surface we may wish to letter into squares (or parallelograms as the case may be), in pencil lines; form the required letters, in ink or paint, and according to the style chosen; erase the pencil lines, and the lettering is complete.

DEVOTED TO

ART, ARCHITECTURE,

ARCHÆOLOGY, ENGINEERING AND DECORATION.

PUBLISHED EVERY SATURDAY.

Subscription, $6.00 per year. **Fifteen Cents per copy.**
Foreign Subscription, $7.50. **Samples Free.**

Two New Departments have been added during this year, ARCHITECTURAL ENGINEERING and SANITARY AND DOMESTIC ENGINEERING, and a Special Feature of one issue each Month is PRACTICAL Details of Exterior and Interior Work, carefully drawn to Scale.

WHAT SUBSCRIBERS SAY.

Mr. Frank Niernsée, Architect of the State House, Columbia, S. C.:

"I must express my pleasure in the great improvements you have made in your journal, both in reading matter and design of cover. I take several architectural publications, and I find your journal second to none—always keeping fully abreast of the times. You have a wide circulation in the South."

Professor N. Clifford Ricker, of the Illinois University:

"I am much pleased to see the new department—Architectural Engineering."

Wm. A. Gould, Architect, Denver, Col.:

"Allow me to express my delight and appreciation of the advance step you have undertaken in trying to make ARCHITECTURE AND BUILDING the foremost among such publications. Both new departments are a gratification and a pleasure to me—especially Architectural Engineering."

W. E. W. Hunter, Hamilton, Ont.:

"I received the numbers on the 12th inst., and please accept my sincerest thanks for the same. I think they are the best I have seen, and we take several architectural journals."

Frank J. Grodavent, Denver, Col.:

"I am in receipt of the numbers of ARCHITECTURE AND BUILDING which were due at my last writing, in which I enclosed renewal for 1890. I think the change entered into for the new year very marked and fully appreciated by your many subscribers."

John C. Bansemer, Smelter P. O., Cascade Co., Mont.:

"I am pleased with the new Engineering Departments, and would like a continuation of the practical examples of building constructions in detail."

WM. T. COMSTOCK, Publisher,

23 Warren Street, - - - New York.
